

TAKE CONTROL OF YOUR PERSONAL INFORMATION

A few minutes a day will make a lifetime of difference.

Identity theft and privacy infringement are hot topics. More and more, your personal information is becoming accessible to people you don't know. Locket gives you a simple and safe system to control and manage your family's information in one place.

Create lists of passwords for seldom used websites, develop personal medical records and store essential documents. You can even safeguard precious photos, family recipes or whatever you choose.

Everything is password protected and encrypted for ultimate protection.

The portable Locket USB drive allows you to take your vital facts and info everywhere, access and update it from any PC and keep it safe in your hands – all without an internet connection. With just a few minutes each day, you can regain control of your information, get organized and build a legacy for your family and friends.

MEDICAL • FINANCIAL • PERSONAL • ONE PLACE
